Detailed Specifications

1. Intensity Slider

Style: Cyberpunk angular track with glowing accent

Interaction: Large touch target, thumb-friendly

Display: Big value shown next to slider (e.g., "8" or "8/10")

Color: Does NOT change as you slide (consistent track color)

Reference: Similar to Cyberpunk 2077 slider UI

2. Anchor Movement Selection

Layout: 3 columns × 2 rows grid

Options: SQUAT, HINGE, PRESS, PULL, ROTATION, SURPRISE

Style:

- **Active state:** Filled background (solid color like orange/gold)
 - **Inactive state:** Outline only (glowing border, transparent fill) **Typography:** All caps, bold, Rajdhani font
- Touch target:** Large buttons, easy to tap
- Reference:** Cyberpunk 2077 menu navigation (filled vs outline states)

3. Location Preset (Accordion)

Default state: Collapsed, shows current location + chevron

Expanded state: List of saved locations + "Add New" link

Priority: Low visual weight, not heavily used

Style: Minimal card with subtle border

4. Optional Fields

Time Input:

- Small text input
- Placeholder: "45 min"

- Optional, always visible but de-emphasized

Notes Textarea:

- Small multi-line input
- Placeholder: "Any notes or modifications..."
- Optional, always visible but de-emphasized

Placement: After location, before CTA

5. Generate Workout Button

Position: Sticky at bottom (always visible)

Style: Primary CTA button

- Orange gradient background
 - Glowing border/shadow
 - Large text: "GENERATE WORKOUT" with arrow icon
- Interaction:** Single tap to generate
-

User Flow

1. User opens app (already on this screen by default)
 2. Adjusts intensity slider (1-10)
 3. Taps anchor button (e.g., HINGE)
 4. (Optional) Expands location if needed
 5. (Optional) Adds time/notes
 6. Taps GENERATE WORKOUT
 7. → Transitions to Screen 2 (Review & Edit)
-

Mobile-First Considerations

- **One-handed use:** All inputs within thumb reach
- **Minimal typing:** Slider + buttons preferred over text entry
- **Fast path:** Can generate with just 3 taps (intensity, anchor, generate)

- **Forgiving targets:** Large touch areas for sweaty/distracted hands
 - **Scroll:** Vertical scroll if needed, but most elements fit above fold on mobile
-

Design System References

- **Colors:** Purple/indigo primary, orange accent, lime/rose for intensity states
- **Typography:** Rajdhani (headers), Inter (body), JetBrains Mono (labels)
- **Effects:** Glassmorphic cards, soft glows, grain texture on background
- **Aesthetic:** Cyberpunk utilitarian, functional HUD elements
