

Clear - Settings (Wireframe)

Created: December 22, 2025

Status: Locked for MVP

Phase: 2E Complete

Purpose

Manage app preferences and workout configuration. Reuses UI patterns from onboarding for consistency.

Context: User wants to change their gym setup, adjust workout structure, or update limitations.

Settings Hub Screen

← SETTINGS

WORKOUT SETUP

Locations / Equipment

Building Gym

← Current default

Experience Level

Confident

← Current selection

Workout Structure

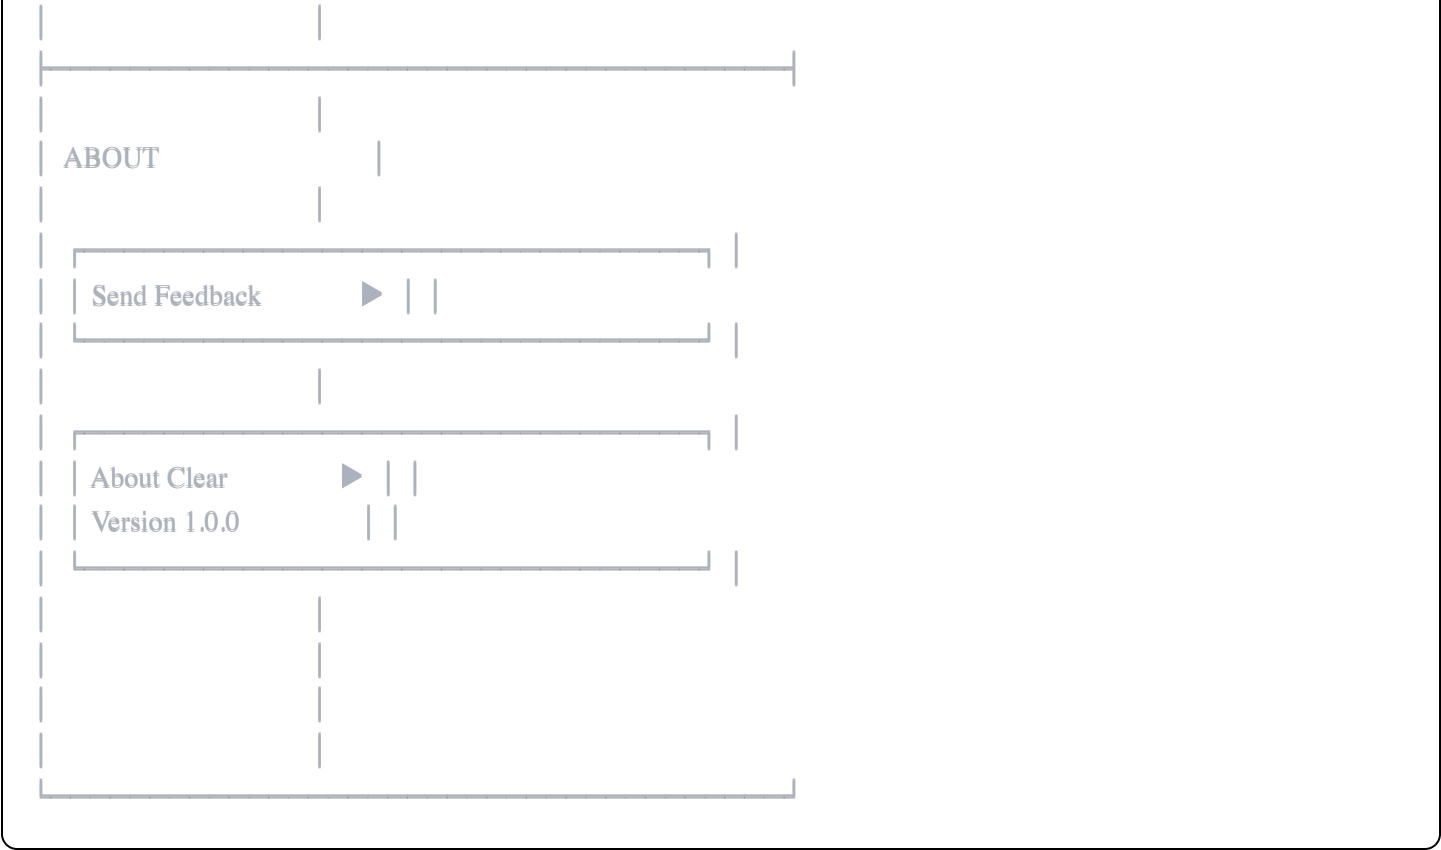

Balanced • 6 sections

← Current preset

Limitations

"Bad left shoulder..."

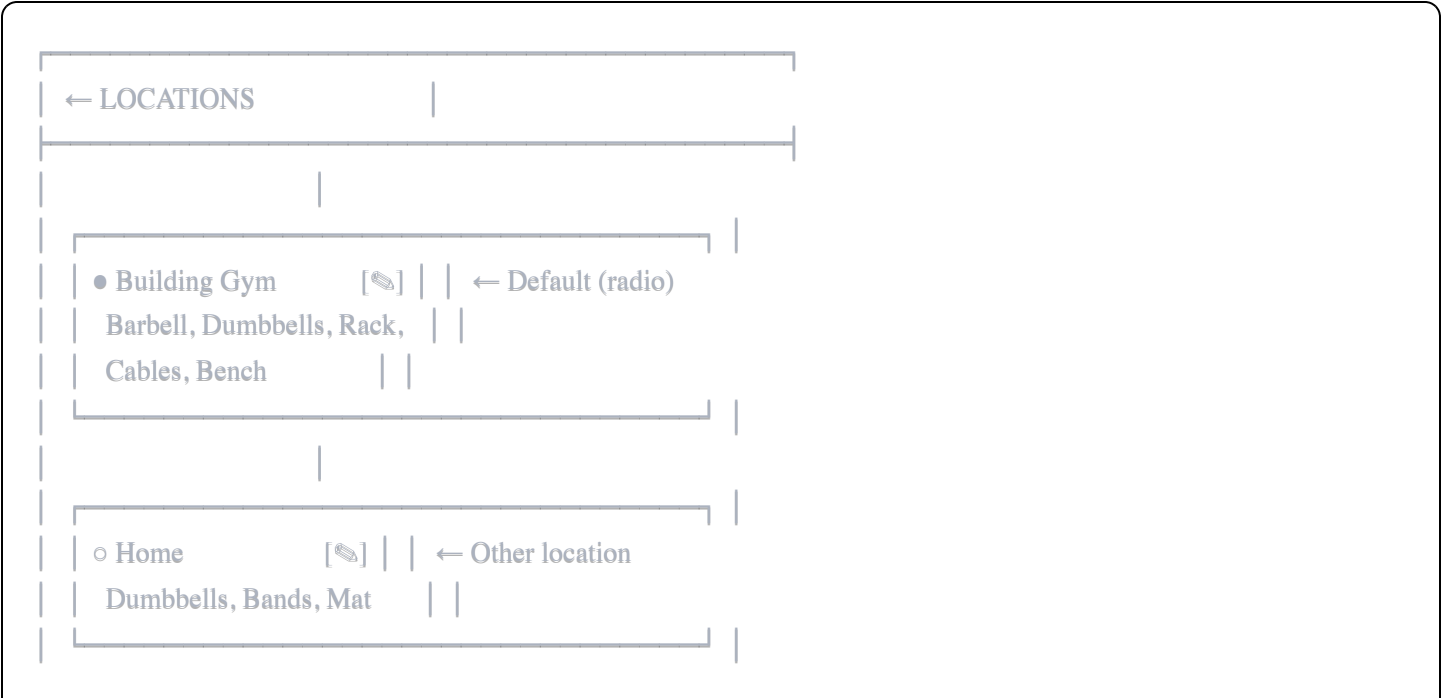

← Preview of text

Sub-Screens

Each settings row opens a dedicated screen. All reuse UI patterns from onboarding.

Locations / Equipment

+ Add Location | | ← Opens equipment setup

Interactions:

- Tap radio (●/○) → Sets default location for workout generation
- Tap [🖋️] → Edit that location's equipment (same UI as onboarding Step 1)
- "+ Add Location" → New location setup flow (tier select + equipment toggles)

Edit Location (Sub-screen of Locations)

← EDIT LOCATION

LOCATION NAME

Building Gym | | ← Editable text

EQUIPMENT TYPE

○ MINIMAL | |

○ HOME GYM | |

● BUILDING GYM | | ← Selected

○ FULL GYM | |

CUSTOMIZE EQUIPMENT ▼ | |

☒ Barb	☒ Dumb	☒ Rack	☒ Cabl		
☒ Benc	☐ KBs	☐ Band	☐ Pull		
Delete Location ← Destructive action					
[Save]					

Interactions:

- Edit location name
- Change tier → Updates equipment toggles
- Toggle individual equipment on/off
- Delete Location → Confirmation prompt → Removes location
- Save → Returns to Locations list

Note: Cannot delete last/only location.

Experience Level

← EXPERIENCE LEVEL					
HOW FAMILIAR ARE YOU WITH THE GYM?					
☐ NEW TO THIS					
Still learning the					

movements. More guidance is helpful.

SOME EXPERIENCE

Know the basics. Comfortable with common exercises.

CONFIDENT ← Current

Just tell me what to do. I'll figure it out.

[Save]

Interactions:

- Tap option → Selects it (single select)
- Save → Returns to Settings hub

Reuses: Onboarding Step 2 UI

Workout Structure

← WORKOUT STRUCTURE

GOAL

STRENGTH

Heavy lifts, longer rest

- **BALANCED** ← Current
 - A little of everything
- **CONDITIONING**
 - Circuits, shorter rest
- **QUICK & EFFECTIVE**
 - Fewer sections, get done

CUSTOMIZE SECTIONS ▼ ← Accordion open

✓Warm

✓Mobi

✓Prim

✓Accs

○Skil

○Carr

✓Core

○Stab

✓Cond

✓Cool

What do these mean? ► ← Expandable legend

[Save]

Interactions:

- Tap goal → Selects it, updates recommended sections
- Toggle section chips on/off
- "What do these mean?" → Expands legend with descriptions
- Save → Returns to Settings hub

Reuses: Onboarding Step 3 UI

Note: Changing goal preset resets section toggles to that preset's defaults. User can then customize.

Limitations

← LIMITATIONS

ANYTHING WE SHOULD WORK AROUND?

Old injuries, problem areas, or movements you want to avoid.

Bad left shoulder from years ago. Overhead press feels sketchy sometimes.

[Clear All]

← Secondary action

[Save]

Interactions:

- Edit text freely in textarea
- "Clear All" → Empties the field (confirmation prompt)
- Save → Returns to Settings hub

Reuses: Onboarding Step 4 UI

Navigation

Action	Destination
Tap ← (from Settings hub)	Home / Dashboard
Tap any settings row	Opens sub-screen
Tap ← (from sub-screen)	Returns to Settings hub
Save (on sub-screen)	Returns to Settings hub
Tap "Send Feedback"	Opens email client or feedback form
Tap "About Clear"	Shows version info, credits, links

Future Enhancements

- 1. **Account** — Login, cloud sync, data export
- 2. **Notifications** — Workout reminders, streak alerts
- 3. **Integrations** — Apple Health, wearables, fitness APIs
- 4. **Data Management** — Export workout history, delete account
